

# THE SUMMIT APARTMENTS TOILET REPLACEMENT

Water Conservation

In August of 2023, SAS Conserve managed a retrofit project with The Summit Apartments to replace toilets, showerheads and sink aerators. Owned and managed by Volunteers of America, The Summit Apartments were built in 1984 and consists of 19 apartment buildings with 256 housing units, 368 bathrooms and a 100 percent occupancy rate.

SAS Conserve is a nationwide provider that focuses on water conservation for large or multiple properties through installation of ultra-high efficiency plumbing fixtures that result in superior water and money savings.

## Water Savings Highlights
