

BUSINESS CUSTOM WATER REBATE

Savings customized for you

We can help boost your business success by reducing your up-front investment for efficiency upgrades and your ongoing operating costs. With our business custom water rebate, you could receive:

- Up to \$60,000 for efficiency improvement
- Thousands more on your bill
- Flexibility in choices for water-consuming fixtures and equipment

We'll review your efficiency improvement idea and determine eligibility for the rebate before you make any purchases.

For information and scheduling, call 719-668-8281 or email sschreier@csu.org.

- Smart Thermostat
- High-Efficiency Cooling Equipment
- Lighting
- Refrigerator/Freezer Recycling
- Motors

How the business custom water rebate works

1. Read all eligibility requirement, terms and conditions, rules, and instructions.
2. Download, complete and submit the custom water rebate preapproval request form prior to purchasing your new equipment.
3. Mail your complete application to:
Colorado Springs Utilities
Business Custom Water Rebate
2855 Mesa Road
Colorado Springs, CO 80904
or email to WaterRebates@csu.org
4. A conservation specialist will set up a time to inspect/verify equipment slated for replacement.
5. Following the visit to your facility, we'll notify you of qualification and rebate amount in writing.
6. Allow eight weeks for rebate processing. *

**Rebate amounts vary by equipment. Rebate funds are limited and subject to change without prior notice. Requests will be granted on a first-come, first-served basis. Some utility rebates are taxable under IRS rules and regulations. Customers are responsible for all applicable taxes. Note: Utilities reserves the right to limit any rebate and conduct on-site inspection of installed equipment. All decisions by Utilities regarding water savings, cost savings, rebate amounts and approvals are final. Utilities can't guarantee water savings and does not warranty rebated equipment.*

ENERGY CUSTOM REBATE FOR COMMERCIAL AND INDUSTRIAL CUSTOMERS

Similar to the water rebate, we'll work with your business to help identify efficiency improvements that can make a big impact on your bottom line.

Our energy custom rebate can reduce the purchase price and payback period for efficient electric equipment such as chillers, compressed air systems, refrigeration and more.

The rebate amount is custom tailored to each project, based on the value of the electrical energy and demand savings.

For more information visit csu.org or call 448-4800.
